

My favorite invention

By Jeremy
SCES

GILBERTOWN -- Do you crave to discover the invention I enjoy the most? This creation is a Game Boy Advance, otherwise known as a G.B.A. I enjoy this accomplished electric experiment because of its fun games. Extreme covers and great colors.

First I will tell you of the superb games. These challenges came in 2 inches by 1/2 inch, which makes them simple to carry. The games come in over 300 varieties, like Sponge Bob Square Pants and The Fairly Odd Parents. You can also play the game anywhere, any day, any place. Except for school of course!

Next, I shall inform you of the extreme G.B.A. covers. The covers have great designs like flames, flowers or your picture! The protectors can have imprints such as your name. A great thing about the covers is that block the G.B.A. from water and fire.

Also I love the cool colors of the G.B.A., such as red, black, etc. I have a regular clear (translucent), but I crave a super clear G.B.A. (transparent).

In conclusion, I enjoy the G.B.A. because of the awesome games, cool covers and great colors. I love the Game Boy Advance! (And I hope what I've told you will make you love them too.)

I know what I lost

By Samantha
SCES

My intentions were not to be that way. I didn't mean for you to see.

But now you don't want me back and neither does he.

I can't believe I left you so blue.

But he wasn't worth losing you.

I know my intentions were bold.

But now I know what I lost and what I could've had.

My favorite teacher

By Darron
SCES

GILBERTOWN -- Do you want to know who my favorite teacher is? It is Mrs. Martin. She is my favorite because she's funny, nice, and she teaches my favorite subject. She is the best teacher ever.

To begin with, Mrs. Martin is very funny. She does funny dances that make legs. A really funny thing she does is tell funny stories. The last funny thing she does is make the most outrageous jokes. Mrs. Martin is the funniest teacher I know! Also Mrs. Martin is very nice. Most of the time she does not give us hard work. The work is like tying your shoes. When I go home I play most of the time because she almost never gives us that homework. Mrs. Martin is so nice she never gets mad. Mrs. Martin is the nicest teacher I know.

As well as she teaches my favorite subject, writing. Mrs. Martin knows how to write really good. She is the best writer I've known since kindergarten. Mrs. Martin is one of those teachers who love, I mean love writing. Mrs. Martin is the best writer ever. As one can see Mrs.

Flying on the swings

By Katlin Adams

My enormous school playground has swings. The reason why I like the swings is because of the sights, smell, feel, and hear. I see many kids playing on swings.

Another reason is that I don't like the smell of sweaty kids. When I go outside and swing I feel like I am flying in the air. Also, I hear kids laughing and screaming. The swings are the most amazing thing ever on the playground.
