Snow excels in science fairs at several levels

JACHIN — Melissa Snow, daughter of Mr. and Mrs. David Snow of Jachin, has distinguished herself in her junior year at Patrician Academy in the Science Fair area.

Melissa began her success by winning Best in Show at Patrician. Following this accomplishment, she then participated at UWA where she won the Regional Alabama Seniors and Engineering Award, First in Engineering, Best of Fair in the Senior Division, the Herbert Hoover Young Engineer Award, the ASM award, and was chosen as a finalist to the International Science & Engineering Fair in Albuquerque, NM to be held May 13-18.

At the State ASEF in

Huntsville, Melissa won First in Energy and Transportation, an Honorable Mention for the Boeing Award, the Sigma Xi, WAH Chapter, Best in Show, the Ricoh Sustainable Development Award, and the Yale one of two Best of Show Award for the 11th grade.

Melissa had set a goal for herself early in the school year to attend to the International Science Fair. Her brother, Steve Snow, a graduating senior at Auburn University in May, had attended, and Melissa desired to follow in his footsteps.

Such determination and hard work surely deserved this reward and honor, and her family is proud of all of her accomplishments.
